Superintendent of Public Instruc-DR. H. A. M. HENDERSON, of

election to the office of Superintendent of How Z F SMITH, of flenry county,

tic Instruction.

The Political Prospect.

-about eight in the Senate and one or Hunter, 852. two in the lower house-over the Re- Fourth District .- J. Proc or Knott, questions with the Democrats. A ma- Belden, 4353. jority of the delegations from eighteen Fifth District. - Albert S. Willis, teen States Republicans; while in Indi- ocrat, 7492; Horace Scott, Republiand the Democrats have six, the Res can, 5508; Blanton Duncan, Green jury, publicans six and the Greenbackers backer, 383. Willis' majority over one. California has to elect next Kearny, 1623. September; the present delegation Sixth District,-J. G. Chalisle can carry a majority of the California majority, 4024. States, with Indiana a tie and a Green. 3543. Blackburn's majority, 5084. bucker to u tie it.

If the election of the next President 7,293; Bennett, Republican, 2,645; should go to the House, it is badly Kilgore, Greenback, 912. almost impossible for either side to get tricts yet. more than nineteen. If the election official Vote of this Congressional Disshould go to the House and either side fail to get the necessary twenty States. The following is the official vote of of rare beauty and sprightliness-a then it devolves apon the Senate to elect this (the Second) Congressional Disgrandchild of Volney Peyton. Con- Effectually cares Kilmer Communities. a Vice President from the two highest trict. McKenzie carried every county trasted with this little child of four numbers on the electoral list, who in the district. Benjamin Shown, of summers, was an aged aunt of Mr. Is effective in its cure of Female Weakness. would become President. In such a McLean county, received but 39 votes. Smith, eighty-five years of age who case the Senate, being Democratic, The entire vote is 3,790 less than Me- was as full of life and thought as of Is the great remody for General Debitity. would of course elect a Democrat.

Take it all in all, the Democrats have a good chance for the next President. If a good nomination is made they will win before the people. If it should go before the House the prospeets of success are good; and if a tie, and it goes before the Senate, then it is a certainty.

The People Free and Ballot Pure

A power made up of monied monop olies in this Government does not yield so easily even to the expression of the people in their great majorities, for the and virtue of the people, the Radical Brown had no sense, and now I can party, with its corrupt managers, have prove it. A WONDERFUL DISCOVERY!

A DEODORIZED EXTRACT OF PETROLEUM. The only Article that will Restore Hair on Bald Heads.

WHAT THE WORLD HAS BEEN WANTING FOR CENTURIES.

The greatest discovery of our day, so far as a notine, an article prepared from Petroleum, and which effects a complete and radical cure in case of baldness, or where the hair, owing to diseases of the scalp, has become thin and tends to fall out.
It is also a speedy restorative, and, while its use
secures a luxuriant growth of hair, it also brings back the natural color, and gives the most coplete satisfaction in the using. The falling out of the bair, the accumulations of dandruff, and the premature change in color, are all evidences of a discused condition of the scalp and the glands which neurish the hair. To arrest these causes the article used must possess medical as well as chemical virtues, and the change must be gin water the scalp to be of permanent and fasting benefit. Such an article is Caurottee, and like many other wanderful discoveries it is found to consist of elements almost in their natural state. Petro-leum oil is the article which is made to work such extraordinary results; but it is after it has been far-off Russia that the effect of petroleum upon th hair was first observed, a Government officer having noticed that a partially hald-headed Bervani of his, when trimming the lamps, had a habit of wiping his oli-bestscared hands in his scanty locks, and the result was in a few months a much facer head of black, glossy hair than he ever had before. The off was fried on horses and cattle that had lost their hair from the cattle plague, and the len out, were completely restored in a few weeks. These experiments were heralded to the world but the knowledge was practically useless to the prematurely build and gray, as no one in civilized society could tolerate the use of refined petroleum as a dressing for the hair. But the skill of one of our own chemists has overcome the difficulty, and by a process known only to himself, he has, after very elaborate and costly experiments, succeeded in deodorizing petroleum, which renders it susceptible of being handled as daintily as the famous eas de cologue. The experiments made with the desslorized liquid on the human hair were attended with the most astonishing results. A few applications where the hair was thin and falling

gave remarkable tone and vigor to the scalp and hair. Every particle of dandruff disappears on the first or second dressing, and the liquid, so searching is its nature, seems to penetrate to the roots at once and set up a radical change from the start. It is well known that the most beautiful olors are made from petroleum, and by some mysterious operation of nature the use of this article gradually imparts a beautiful light-brown color to the hair, which, by continued use, deepens to a black. The color remains permanent for an in-definite length of time, and the change is so gradual that the most intimate friends can scarcely detect its progress. In a word, it is the most won-derful discovery of the age, and well calculated to make the prematurely baid and gray rejoice. We advise our readers to give it a trial, feeling attisfied that one application will convince them of its wonderful effects .- Pittsburg Commercial of

ng and encouraging results:
